## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by White.

White's Fig. 10 illustrates both a method and apparatus for performing digital recursive filtering by implementing the filter's transfer function with a plurality of first order filters (elements 18A) and a plurality of second order filters (elements 18B) operating in parallel with the outputs of the filter summed to provide the filter output.

### ***Allowable Subject Matter***

3. Claims 15-24 are allowed.
4. Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
